

OK,Basically the FCC just needs to be dissolved. The comission is no longer a viable asset in our government and our society. They are hard core fundamentalists who feel their ideas and opinions are the only ones that we United States citizens should live by. The FCC spends billions of taxpayer dollars preaching their "church" to this country. Well, I believe there still exists a seperation of church and state in the USA, so stop preaching FCC. Just fold up your tent and go away. Allow the people of this country make their own choices of what they listen to. Stay out of our lives.

SK
